These re	sults are 95 out of ov		tests done at Shamabhala music festival 2017 by the ANKORS crew. Stay tuned for a full rt in the coming months. THANK YOU
EVELOTE		· ·	WHAT YOU SHOULD KNOW
2C-B		SAMPLE DESCRIPTION Blue superman baggie	WHAT YOU SHOULD KNOW NOT 2C-8. Includes compounds beyond our substance library. A model candidate for our safe disposal service.
2C-B	PMA	Yellow bee pressed pill	PMA and PMMA are toxic in higher doses and can cause fatal hyperthermia. These drugs are NOT recreational substances.
2C-B 2C-B	2C-B Unknown	Small, pink Mickey Mouse pressed	It is very difficult to determine everything that pressed pills contain because of binders and fillers Be careful when taking 2C, dosaos are very small. Be careful when taking 2C, dosaos are very small.
Cocaine	Cocaine and Benzocaine	White clumpy	Cuts test appeared as ephedrine, further exploration with spectrometers contrasted results. MS1066
Cocaine	Cocaine Propionic Acid	TGreen Alien Baggy, bought onsite,	Propionic Acid = preserving agent, smells like body odour, Temazepam = a 'downer' used for insomnia, pain management dangerous when when mixed with alcoho
Cocaine	Cocaine, Acetaminopher	White Powder	Acetaminophen (Tylend) False Pos with Ephedrine for cuts test M5119
Cocaine			Cuts include levamisole, ephedrine, tetramisole, phenacetin, and others! Some samples contain no cocaine at all Isome cocaine has contained aspirin, methamphetamine, and prancetamed
Cocaine	MXE	White powder	Coune cucare ines counteme aspirit, inequality interpretation, and peracelearity. This wouldn't be a good thing to mix up
Cocaine	Unknown	White powder in seran wrap	Sold onsite as cocaine, no cocaine present in sample. Tested positive for many other common cuts (levamisole, Ephedrine)
Cocaine	3-Methylfentanyl Cocaine + cuts	Chunky white powder Various different samples	Dangerously strong opioid (fentany) analog) estimated to be between 400 and 6000 times stronger than morphine Pick a cut: epiderine, dimethyl sulphone, benzaldehyle, bugroden, morphiline, cafferine, benzocaine, we've seen it all
Cocaine		et White powder brought onsite	Test your purchase -most substances are cut with other things, some are more dangerous than others
Cocaine		Yellow Black/Batman Bag	Most cocaine has adulterants in. Ephedrine and Cocaine can be dangerous when used together
Cocaine	Unknown	Clear bag, clumpy white powder	Be careful handling clumpy substances, user reports strong burn in nostrils and no effect.
Cocaine	Unknown	o Green bag with pot leaf on it Purple sexy lady bag	(methysulfonyimethane) causes no significant effect. It is a dietary supplement. Many new desirent stimulants are "unknown" to us
Cocaine		Yellow/black batman bag	Use wise decisions when taking drugs with higher risks of impurities.
Cocaine		e White powder in Blue baggy White powder in yellow car baggie	Discorpoylene can cause skin rash and intates sinuses, eyes nose and throat Une can intate skin, eyes and respiratory tract.
Cocaine	Allopseudococaine, Pher	naBlack club baggy	Cocaine analogue and cut
Ketamine Ketamine	Ketamine + cathinones	Powder / crystals	Ketamine sample contained cathinone compound (stimulant) This may have been a mistake made by the guest or by the dealer - a good reminder to ALWAYS CHECK your stuff
Ketamine	Ketamine + 2-hexanone	Powder / crystals	and by people who are not trained professionals
Ketamine Ketamine	Fentanyl Ketamine + solvents	Being sold onsite!	Get your drugs checked Fentaryl is a powerful respiratory depressant that is extremely easy to overdose and die from. Lots of un-exportated solvents being including 1.2 Divormon-ethane and 2 Zenethylpontane
Ketamine	MDMA		Loss or un-everporates exverens cent gourne no retarmen renount part part part part part part part par
Ketamine Ketamine		Powder / crystals	MXE is sold as ketamine. It comes on slower and is easy to overdo it if you aren't feeling it. Start low, go slow.
Ketamine	Ketamine + acrylic polym Unknown		This isn't a cutting agent we see regularly. We have seen lots of 'pure' samples that ain't so pure. What's in your bag? **Users effet actremely injsh for 8 hours, colour change tests are inconclusive— unknown substance bought on site
Ketamine	Ketamine + possible PMI	M Slender man pattern on baggie	PMMA can cause fatal hyperthermia at any dose. Check in with medical if feeling too hot and unwell.
Ketamine Ketamine	MDMA Fentanyl	Red heart baggie Clear bag w/ white powder	Many, many instances of ketamine being swapped for MDMa and vice-versa. Get your drugs CHECKED! Get your drugs checked! Fentanyl is a powerful respiratory depressant that is extremely easy to overdose and die from.
Ketamine		es White crystal in ninja baggie	Raman spectrometer returned multiple results including MDMA and dimethyl sullone, but no ketamine
Ketamine	Phenacetin Fentanyl	Red smiley faces on bag	NO ketamine in sample, phenacetin is a pain-relieving and fever-reducing drug commonly used as a cocaine cut r Get your drugs checked! Fentanyl is a powerful respiratory depressant that is extremely easy to overdose and die from.
Ketamine	PMA	Fluffy white powder, bought offsite	i FIMA can cause fatal hyperflemma at any dose. Once for in with medical file filening both and on wheel.
Ketamine	MSM	Powder / crystals	MSM is a nutritional supplement with no psychoactive effects. It might make your joints less stiff but it will hurt your nose!
Ketamine	Ketamine and Phenaceti	n Yellow baggy with biohazard sign -	Phenacetin is a banned substance like asprin, banned because of dangerous side effects, hard on the heart and kidneys
		ii railow baggy with bioriazara bigir
